With Uplanders

By V. V. P.

CITRUS CAPITOL

Very few cities in southern California pay out $11,000,000 annually to citrus growers.

All of that money did not go to local citrus growers but it all came from the Upland office of Sunkist Growers, Inc. Citrus acreage has been decreased in the southland. Citrus packing houses have been consolidated. Sales districts within the Sunkist organization have also been consolidated.

Thus, Upland is headquargers for what is now known as the O-K, San Antonio Exchange of, Sunkist Growers, Inc. The area served by the local office now extends from North Whittier Heights and La Puente on the west to Rialto. In other words, most of the southland citrus proconnected with the local office at Second Ave. and A St. Phil Higginson is the local manager.

SUBURBAN GAS

Fewer than 10 years ago, the Suburban Gas Service, Inc., was only an idea.

W. R. Sidenfaden and Ralph Gaines and perhaps a few other ambitious men visioned a new business. Offices were opened in Ontario to dispense liquified gas in containers. At that time we were privileged to print their ofifce forms and we recall the quantities, at the outset, were small.

Soon, the quantities were increased. . .very sizeably. It wasn't long until "executive offices" were opened on Foothill Blvd. in Upland. By that time, the variety of office forms and the quantities were stupendous.

Today, the local firm covers most of the western states and is one of the top flight stock companies. Stock shares in the company are being increased to 1,000,000.

The one sad part about such a successful idea is that today the Suburban Gas Service is moving to larger quarters — out of Upland to a new office building being erected in Pomona.

WATCH THAT PRAISE, IT MAY BE THE HATCHET IN DISGUISE

One of the most ironic circumstances ever to come to our attention took place this past week. One of the major industries of this area featured an Upland employee in its company publication, publishing several pages of pictures of the staff member and his superior complete with written text proclaiming their ability and value to the company. On the following Friday, the Upland man received his walking papers. . .a victim of the mass lay-off at the plant. At least he left in a blaze of glory.

NURSERIES CONTRIBUTE TO FORMATIVE YEARS OF PRE-SCHOOLERS

This is Nursery Education Week in California, by proclamation of Lt. Gov. Harold J. Powers, and we are especially aware of the observance as our 3½-year-old is an enthusiastic nursery school booster.

The proclamation of Mr. Powers is of worthwhile context and we quote from it: "The future of our country is dependent upon citizens who are today our very young children. Their fitness for adult responsibilities will be influenced in large measure by the experiences we provide for them in their formative years. Young pople, from their earliest years, require an environment filled with stimulating activities which promote a sense of security, a feeling of competence and courage and a happy relationship with other children and adults.

"In California, nursery schools in rapidly increasing numbers are providing helpful programs for children, parents and prospective parents. Child care centers for working mothers, special programs for handicapped children and observation schools as a part of

'Bike Safety Week' Feb. 2-8 Proclaimed By Mayor Carr

"Bike Safety Week" was proclaimed yesterday for the week of Feb. 2-8 in Upland by Mayor Donald C. Carr, forwarding a campaign for bike safety being sponsored jointly by the Parent-Teacher Assns. of the Upland Elementary school district, Optimist club of Ontario and Upland Police Dept. in an effort to stimulate education in traffic safety.

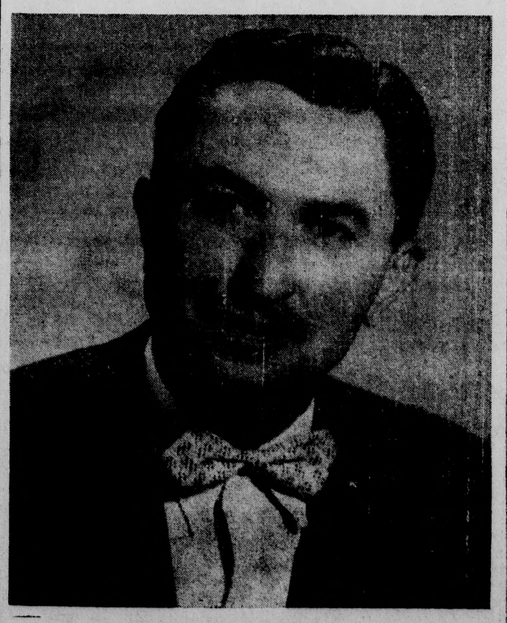

"We respectfully urge all motorists, mothers and dads and bike riders to support this safety campaign in an effort to eliminate the existing perils of travel," Mayor Carr said. "Each of us has an important part in this very real and grave problem. Motorists can help prevent bike accidents by observing all traffic laws, by exercising extreme caution when the path of your car and that of the bike rider cross. By remembering that two small legs on a slender frame and two small wheels cannot compete with the high powered two-ton giant you are driving.

"Mothers and dads can help prevent bike accidents by actively supporting our schools and Police department in the education of their children in Traffic Safety. By helping to teach them to observe traffic laws, rules of he road and to respect the rights of others.

"Bike riders can help to prevent accidents by learning to obey all traffic laws and above all by being careful at all times. We in public service can help to prevent all kinds of accidents by backing an intensified educational program in Traffic Safety.

"Shall we unit to make this Bicycle Safety campaign a real success? Together we cannot fail."

DESERT DECORATIONS PREPARED FOR FIRST OASIS DANCE

With a desert theme chosen for the first social event of The Oasis, Chaffey district youth center, the National Guard armory in Ontario will be transformed with appropriate desert decoration's Friday night for the dance featuring Les Brown and his Band of Renown. Shown here with a dried yucca, typical of the decorations to be used, are from left, David Grossman, Oasis photographer; Tom Cleland, dance co-chairman, and Julie Thrall, at whose home a Monday night planning session was held.

Les Brown and Band Plays For Oasis Saturday Hop

Les Brown and "His Band of Renown" are scheduled to play for the first function of the Oasis Youth center, a dance to be held Friday, 9:30 p.m. to 12:30 a.m. in the Ontario National Guard armory.

Les Brown's band is known all over the world through his eight years with Bob Hope on Radio and TV, his recordings and his personal appearance tours as well as his tours before armed forces units in Europe, Japan, Alaska, Korea and many other far countries.

In 1940, Les organized the "Band of Renown", which has moved steadily forward in a number one spot. From 1953 to 1956 he won all major first place honors. His first place in Downbeat and Metronome magazines continues year after year.

Use of the armory is made possible through the cooperation of Lt. Col. Alvin E. Howell, president of the armory board; Capt. Dennis I. Dyer, First Lt. Geo. H. Lundgren and Capt. Paul K. Larson. A large group of adult boosters are donating much time and effort to make the youth dance a success.

Co-chairmen for this big event are Tom Cleland and Bob Estabrook. Working on decorations are Karen Hancock, Janet Ford, Kathy Gilbert, Rae Mullenix, Marilyn Mack, John Snell, Lowell Bosshardt and Mike Williams. The committee plans to decorate the armory in a desert motif. Busy on the refreshment committee are Irma Anderson, Bill Steern, Ken Kloepfer, Bill Kloepfer, Terry Agnew, Delphine Miller, and Nancy Hein.

Students are reminded that all high school students in the Chaffey District must have a membership card in order to be eligible to gain free admission to the dance. Non-high school or out of town guests will give a donation of $2.00.

Child Development Classes Have Active Class Project

Concluding tomorrow at Upland High school will be the Play School for Child Development classes of the Homemaking Dept., Mrs. Rachel Temple, instructor.

For the past two weeks, a dozen pre-school youngsters 2½ through 4½ years of age have attended the morning play school session, affording the students an opportunity to (1) observe children—not only what they do at different ages but how they think and feel, (2) have a greater interest in children, (3) realize individual differences in children, (4) organize and manage a play school as a co-operative class effort, (5) appreciate toys, stories, games and play equipment that children enjoy, and (6) evaluate a play school experience.

Each morning session has been from 9:45 to 12:10, and divided into two periods. A typical day opened with greeting and health inspection, followed by free play—including table activity, playing house with small scale furniture, riding rocking horses, drawing and writing on easels and playing with movable toys; group activity, news circle, serving of orange juice, and another free play time, concluding the first period. Second period opened with free play, followed by story time, group activity and preparations for the tots to return to their homes.

Student directors for the play school have included the following: Marsha Kelber, Jill Visnak, Janice Jong, Catherine Redigonda, Lietta Gilliland, Judy McCorkell, Carol Remmele, Linda Moseley, Alda Campanella, Cheryl Weaver, Mike Hanley and Jan Shackelford.

Children attending the play school have included Anne Allen, two years, seven months; Betsy Grable, four yrs., five months; Nancy Martini, four yrs., nine mos.; Nora Stevens, three yrs., one mo.; Carilyn Turner, three yrs., four mos.; Morgan Weir, two yrs., six mos; Ricky Green, two yrs., 10 mos.; Danny Rousseau, three yrs., 11 mos.; Jimmy Peterson, three yrs., four mos.; Tommy Randleman, four yrs., seven mos.; John Rice, four yrs., 3 mos., and Kenneth Wolfe, three yrs., two mos.

Kiwanis Club Achieves 99 Per Cent Year

With a 100 per cent attendance year the goal of Upland Kiwanis club in 1958, President Alex McLeish reported, at the Tuesday luncheon meeting in the Stuft Shirt restaurant, that the Upland club in 1957 achieved a 99.91 per cent attendance record.

This record included 50 100 per cent attendance meetings during the year and an increase in the club membership of 13 members, from 38 to 51 Kiwanians. The club actually received 17 new members but lost four other members and achieved 100 per cent records for 10 of the 12 months of '57, Past President John Nicholson said.

Andy List, attendance and membership chairman for 1958, challenged the club to achieve a 100 per cent year in '58, using a wooden model satellite rocket to illustrate the objective. The rocket is divided into 12 parts representing the 12 months of the year, and Mr. List told his fellow Kiwanians the necessity of having every one of the 12 parts 100 per cent accurate to achieve a successful launching.

A report on the progress toward realization of Kiwanis park on E. Eighth St. was given by Alan Howell.

Guests at the luncheon, representing the Key club at Upland High school, were Jos. Jennings, faculty advisor, and Jon Kay, who is sophomore class president.

Cast Of 12 In Saturday Senior Play

A cast of 12 will handle the difficult acting rolls in Chaffey High school's Saturday senior class production, "Death Takes a Holiday", but nearly 60 other students will be directly concerned in creating the illusions which are so vital to the success of the play, according to Allan Greiner, faculty director.

Sick Baby Fund Report Shows Substantial Gifts

San Antonio Community hospital auxiliary members meeting in the Barr solarium of the hospital, Monday, heard reports from various committee and fund chairmen. Mrs. Robt. Walker, presided as president.

Mrs. Earl Johnson, reporting on the sick baby fund, stated that since November the current drain on the fund had been alleviated by a number of substantial gifts, including grants from the Price Foundation and Community Chest.

The fund's deficit now stands at $325. Before Christmas the fund had a deficit of nearly $2000. An increasing number of children of indigent families are being cared for, it was stated.

Mrs. Norman S. Lawson reported that the balance on hand of the Free Bed fund stands at $6700. Since November when the last report was made, seven cases have been given care.

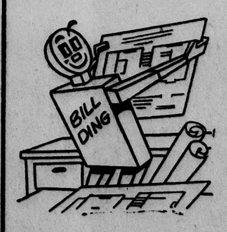

Miss Hannah Comly, reporting on personal membership, said that 67 have been paid. Mrs. Robt. Bowman, reporting on organizational membership, said that of 42 groups registered 32 have paid their fees.

There was no report or date set for he annual spring dance which will be arranged under the chairmanship of Mrs. Harold H. Royaltey.

Ontario-Upland YMCA Reports

National YMCA Week Observed In Area Meetings, Services

Final plans for the observance were made at the Thursday night session of the Ontario-Upland YMCA directors, with Uplanders present including Allan S. Barr, Joe Kamansky, Harold Stewart and Chas. Smith (Alta Loma).

Enrolls 3,025 Youth

The directors learned that in 1957 the Ontario-Upland YMCA enrolled 3,025 members in 126 different groups. Of this total, 2,326 were pre-high school boys and girls and the remainder were high school students.

Under a study and master plan for the "Y", completed recently through the help of the Pacific Southwest area YMCA staff, and adopted by the board, the major emphasis of the local "Y" is to be placed on work with groups, both building centered as well as those located in the neighborhoods where the youth live or related to the school or church that they attend, but having the use of the YMCA building for scheduled use when they so desire it.

National YMCA week is being celebrated this week in Upland and Ontario and throughout the U.S. and Canada, with local observances being made in "Y-Week" programs at service clubs and in the churches, with Sunday designated YMCA Sunday in local churches.

Second phase of the work is physical education and recreational activities including games, sports, crafts, calesthenics, gymnastics, weight lifting and other physical fitness programs geared to age level of the group. Emphasis is to be placed on physical fitness, the teaching of skills and recreation.

LEGAL NOTICE

ORDINANCE NO. 547

AN ORDINANCE OF THE CITY OF UPLAND, GRANTING A FRANCHISE TO TELE-MOVIE DEVELOPMENT COMPANY, INC.

The City Council of the City of Upland does ordain as follows:

Section 1. DEFINITIONS. For the purposes of this ordinance, the following terms, phrases, words, and their derivations shall have the meaning given herein. When not inconsistent with the context, words used in the present tense include the future words in the plural number include the singular number, and words in the singular number include the plural number. Provision of this ordinance shall be construed in accordance with the Laws of the State of California.

(a) "City": The City of Upland, a municipal corporation of the State of California, in its present incorporated form or in any later reorganized, consolidated, enlarged or re-incorporated form.

(b) "Council": The present governing body of the City or any future board constituting the legislative body of the City.

(c) "Franchise Property": All property located by, and qualified in a street under authority of this franchise.

(d) "Grantee": The person or corporation to whom or which this franchise is granted by the Council, and the lawful successor, transferee or assignee thereof, and who or which has filed with the City an acceptance and bond, referred to in Sections 3 and 13.

(e) "Street": The surface of, and the space above and below any public street, road, highway, freeway, lane, alley, court, sidewalk, parkway, or drive, now or hereafter existing as such within the City.

(f) "Closed Circuit System": Coaxial cables, wave guides, other conductors or other closed channels for providing entertainment, educational, informational or intelligence material, visual, audible or other, by radio frequency, electric impulses of radio frequency electromagnetic waves passing over, on, in or through such facilities, excluding any general broadcast of radiant energy, for consideration or as a public service to Subscribers, at the selection of the Grantee.

(g) "Subscriber": Any person or entity receiving for any purpose Closed Circuit System signals or other Closed Circuit System transmission.

(h) "Operating Licensee": Any person or entity, conducting all or part of a Closed Circuit System under license of, or transfer from, the Grantee, pursuant to Section 6 (c).

(i) "Total Gross Receipts": Any and all compensation and other consideration in any form whatsoever and any contributing grant or subsidy received directly or indirectly by Grantee and its Operating Licensees from Subscribers in payment for Closed Circuit System signals or other Closed Circuit System transmission received within the City. Total Gross Receipts shall also include any and all revenue wherever or however derived, from any person or entity, whether located inside or outside of City, as consideration for the performance of advertising, plant protection or communication services or any other services of any type or nature whatever by the use of all or any part of a Closed Circuit System located within the City, other than services to such person or entity as a Subscriber.

(1) For the purpose of determining Total Gross Receipts, compensation or other consideration received by an Operating Licensee of the Grantee shall be deemed to have been received by the Grantee.

(2) For the purpose of computing that portion of Total Gross Receipts which is obtained as consideration for services other than to a person or entity as a Subscriber, any payment of compensation or other consideration received by the Grantee for such services shall be equally and reasonably allocated by Grantee and shall be determined by the ratio that the revenue obtained for services from Subscribers within the City bears to the revenue obtained for services from Subscribers performed both inside and outside of the City by the use of all Closed Circuit Systems of the Grantee.

(3) Total Gross Receipts shall not include any taxes on the services furnished by the Grantee imposed directly on Subscribers for any City, state or other governmental unit and collected by the Grantee for such governmental unit.

Section 2. FRANCISE GRANT. The franchise hereby granted by the City authorizes Tele-movie Development Company, Inc., subject to the provisions herein contained, to engage in the business of operating and providing a Closed Circuit System in the City, and for that purpose to erect, install, construct, repair, replace, reconstruct, maintain and retain in streets such poles, wires, cable, conductors, ducts, conduit, vaults, manholes, amplifiers appliances, attachments, and other property as may be necessary and appurtenant to a Closed Circuit System; and, in addition, so to use, operate and provide similar properties rented or leased from other persons, firms, or corporations, for such purpose.

Section 3. DURATION OF GRAT. This franchise shall be effective on the thirty-first (31st) day after the publication of this ordinance, provided the Grantee has paid to the City the sum of one hundred dollars ($100.00) and, has filed with the City, within twenty (20) days after such date of publication, a written instrument, addressed to the Council, accepting this franchise and agreeing to comply with its provisions.

This franchise shall expire twenty (20) years after the effective date hereof, unless sooner terminated by the City Council in the event the Council shall have found, after notice and hearing, that: (a) the Grantee has failed to comply with any material provision hereof, or (b) any provision hereof has become invalid or unenforceable, and the Council finds that such provision constitutes a consideration material to the grant of this franchise; provided, however, that the Grantee shall be given at least thirty (30) days' notice of any termination proceedings.

Section 4. FRANCHISE PAYMENTS.

(a) By its acceptance of this franchise, the Grantee agrees to pay to the City, annually, in lawful money of the United States, two percent (2%) of the total gross receipts collected or received, or in any manner gained or derived in each calendar year, or portion thereof, during the term of this franchise, by the Grantee or its Operating Licensees from the properties, operations, and business referred to in Section 2. In any year, or portion thereof, during which payments under this section amount to less than one hundred dollars ($100.00), Grantee agrees to pay the City the minimum amount of one hundred dollars ($100.00).

(b) It is hereby found as a matter of fact, and it is mutually agreed by the City in enacting this ordinance and by the Grantee in accepting the franchise granted by it, that there is no feasible method available for determining the portion of the annual Total Gross Receipts of the Grantee which arises from the use, operation or possession of this franchise and the portion which is attributable to other sources. It is, accordingly, ordained and agreed that the portion of Grantee's annual Total Gross Receipts arising from sources other than the use, operation and possession of this franchise is negligible and impossible to ascertain in any economical manner, and for that reason, Grantee's Total Receipts shall be deemed to arise from the use, operation and possession of the franchise granted by this ordinance.

(c) The payments required by this section shall be paid annually and be due on or before the last day of March of each succeeding year. Payments shall be accompanied by a duly verified statement showing in detail the Total Gross Receipts received by Grantee during the preceding calendar year from the properties, operations, and business referred to in Section 2. The Grantee shall at all times maintain accurate and complete accounts of all revenue and income arising out of its operations under this franchise. Grantee's books, accounts and records shall at all times be open to inspection and examination by authorized officers, agents and employees of the City, and shall be kept in such form as to enable such authorized officers, agents and employees to ascertain the amounts due the City and determine any other facts relative to operations under this franchise. The right is reserved to the City of audit and recomputation of any and all amounts paid under this franchise and no acceptance of any payment shall be construed as a release or as an accord and satisfaction or any claim the City may have for further or additional sums payable under this franchise or for the performance of any other obligation thereunder. In the event of its holding over after expiration or otherwise termination of this franchise, the Grantee shall render compensation pursuant to the provisions of this franchise until the effective date of a new franchise.

(d) Performance or the duty of rendering compensation under this franchise and of every other obligation thereunder shall not be excused by the fact that the Grantee or any of its operating Licensees may purchase lease or utilize, under any arrangement whatsoever, any Closed Circuit System equipment or facilities or any other equipment or facilities required by a Closed Circuit System from any public utility or other person or entity. The Grantee agrees that its obligations under this franchise, including the duty of payment of compensation thereunder, shall apply to all such equipment and facilities so purchased, leased or utilized, whether such equipment or facilities constitute all or any part of the Closed Circuit System operated within the City by the Grantee or its Operating Licensees.

Section 5. SURRENDER OF OTHER FRANCHISES.

(a) By its acceptance of this franchise grant or of an assignment thereof, the Grantee agrees that any Closed Circuit System facilities and appurtenances in streets, which are subsequently acquired by the Grantee or which were authorized by franchises surrendered pursuant to the provisions of this section, may thereupon authorized by and shall be subject to the provisions of this franchise.

Section 6. LIMITATIONS ON GRANT.

(a) No privilege or exemption is granted or conferred by this franchise except those specifically prescribed herein.

(b) Any privilege claimed under this franchise by the Grantee in any street shall be subordinate to any prior lawful occupancy of the streets, or other public property.

(c) This franchise is a privilege to be held in personal trust by the original Grantee. It cannot in any event be transferred in part, and it is not to be sold, transferred, leased, assigned, or disposed of, as a whole, either by deed, sale or merger, consolidation, or otherwise, without prior consent of the City expressed by ordinance, and then only under such conditions as may be therein prescribed; provided, however, that no such consent shall be required for any transfer in trust, mortgage, or other hypothecation, as a whole, to secure an indebtedness. Prior consent of the City expressed by ordinance shall be required in the event the Grantee issues licenses for operations under this franchise to Operating Licensees and such licenses shall be subject to all the conditions prescribed in the ordinance granting consent and the provisions of this franchise. Nothing contained herein shall relieve the Grantee from any of its duties and obligations under this franchise.

(d) Time is of the essence of this franchise. The Grantee shall not be relieved of its obligations to comply promptly with any of its provisions by any failure of the City to enforce prompt compliance.

(e) Any right or power in, or duty impressed upon, any officer, employee, department, or Board of the City, is subject to transfer by the City to any other officer, employee, department or Board of the City.

(f) The Grantee shall have no recourse whatsoever against the City for any loss, cost, expense or damage, arising out of any provision or requirement of this franchise or its enforcement.

(g) Grantee is subject to all requirements of the City Charter and of all ordinances, rules, regulations, and specifications of the City, heretofore or hereafter enacted or established, including, but not limited to, those concerning streetwork, street excavations, use, removal and relocation of property within a street, and other street work.

(h) This franchise does not relieve the Grantee of any obligation involved in obtaining pole space from any department of the City or from others maintaining poles in streets.

Section 7. RIGHTS RESERVED TO CITY.

(a) There is hereby reserved to the City every right and power which is required to be herein reserved or provided by any ordinance of the City, and the Grantee by its acceptance of this franchise agrees to be bound thereby and to comply with any action or requirement of the City in its exercise of any such right or power, heretofore or hereafter enacted or established.

(b) Neither the granting of this franchise nor any of the provisions contained herein shall be construed to prevent the City from granting any identical, or similar, franchise to any person or corporation other than the Grantee.

Section 8. TIME OF PERFORMANCE. Installation of a Closed Circuit System shall be commenced within two (2) years after the effective date of this franchise, and extensions and service pursued with due diligence thereafter. Failure to so commence and offer service shall be grounds for termination of this franchise.

Section 9. LOCATION OF FRANCHISE PROPERTIES. Franchise property shall be constructed or installed in streets only at such locations and in such manner as shall be approved by the Superintendent of Streets, acting in the exercise of reasonable discretion. Construction or installation of franchise property in all other public places shall be subject to approval of and regulation by the City Council.

Section 10. REMOVAL OR ABANDONMENT OF FRANCHISE PROPERTY.

(a) In the event that the use of any franchise property is discontinued for any reason for a continuous period of twelve months or that franchise property has been installed in any street without complying with the requirements of this franchise, the Grantee shall promptly remove from the street all such property other than any which the Superintendent of Streets may permit to be abandoned in place. In the event of any such removal, the Grantee shall promptly restore the street or other area from which such property has been removed to a condition satisfactory to the Superintendent of Streets.

(b) Franchise property to be abandoned in place shall be abandoned in such manner as the Superintendent of Streets shall prescribe. Upon permanent abandonment of any franchise property in place, the Grantee shall submit to the Superintendent of Streets an instrument, satisfactory to the City Attorney, transferring to the City the ownership of such property.

Section 11. CHANGES REQUIRED BY PUBLIC IMPROVEMENTS. The Grantee shall, at its expense, protect, support, temporarily disconnect, relocate in the same street, alley or public place or remove from any street, alley or public place, any franchise property when required by the Superintendent of Streets by reason of traffic conditions, public safety street vacation, freeway and street construction, change of establishment of street grade, installation of sewers, drains, water pipes, power lines and tracks or any other type of structures or improvements by governmental agencies when acting in a governmental or proprietary capacity, or any other structures or public improvements; provided, however, that Grantee shall in all such cases have the privileges and be subject to the obligation to abandon franchise property in place, as provided in Section 10.

Section 12. FAILURE TO PERFORM STREET WORK. Upon failure of the Grantee to complete any work required by law or by the provisions of this franchise to be done in any street, within the time prescribed and, to the satisfaction of the Superintendent, the Superintendent of Streets may cause such work to be done and the Grantee shall pay to the City the cost thereof in the itemized amounts reported by the Superintendent of Streets to the Grantee within thirty (30) days after receipt of such itemized report.

Section 13. FAITHFUL PERFORMANCE BOND.

(a) The Grantee shall, concurrently with the filing of an acceptance of award of this franchise, file with the Council, and at all times thereafter maintain in full force and effect for the term of this franchise at its expense, a corporate surety bond, in a company approved by the Director of Finance and in a form satisfactory to the City Attorney, in duplicate, in the amount of $2000.00 renewable annually, and conditioned upon the faithful performance of Grantee, and that in the event the Grantee shall fail to comply with any one or more of the provisions of this franchise, then there shall be recoverable jointly and severally from the principal and surety of such bond, any damages or loss suffered by the City as a result thereof, including the full amount of any compensation, indemnification, or cost of removal or abandonment of property as prescribed by this ordinance which may be in default, plus a reasonable allowance for Attorney's fees and costs, up to the full amount of the bond; said condition to be a continuing obligation for the duration of this franchise and thereafter until the Grantee has liquidated all of its obligations with the City that may have arisen from the acceptance of this franchise by the Grantee or from its exercise of any privilege herein granted. The bond shall provide that thirty (30) days prior written notice of intention not to renew, cancellation or material change be given to the City.

(b) Neither the provisions of this section, any bond accepted by the City pursuant thereto, nor any damages recovered by the City thereunder shall be construed to excuse faithful performance by the Grantee or limit the liability of the Grantee under this franchise or for damages, either to the full amount of the bond or otherwise.

Section 14. INDEMNIFICATION TO CITY.

(a) Grantee agrees that at all times during the existence of this franchise it will maintain in force, furnish to the City and file with the Council, at its own expense, a general comprehensive liability insurance policy, in protection of City, its boards, commissions, officers, agents and employees, in a company approved by the Director of Finance and in form satisfactory to the City Attorney, protecting the City and said persons against liability for loss or damages for personal injury, death and property damage occasioned by the operations of Grantee under this franchise, with minimum liability limits of $500,000.00 for personal injury or death of any one person and $1,00000.0.00 for personal injury or death of two or more persons in any one occurrence, and $50,000.00 for damage to property resulting from any one occurrence.

(b) The policies mentioned in the foregoing paragraph shall contain a provision that a written notice of any cancellation or reduction in coverage of said policy shall be delivered to the City ten (10) days in advance of the effective date thereof. If such insurance is provided in either case by a policy which also covers Grantee or any other entity or person than those above named, then such policy shall contain the standard cross-liability endorsement.

Section 15. INSPECTION OF PROPERTY AND RECORDS. At all reasonable times, the Grantee shall permit any duly-authorized representative of the City to examine all franchise property, together with any appurtenant property of the Grantee situated within or without the City and, to examine and transcribe any and all maps and other records kept or maintained by the Grantee or under its control which treat of the operations, affairs, transactions or property of the Grantee with respect thereto. If any of such maps or records are not kept in the City, or upon reasonable request made available in the City, and if the Council shall determine that an examination thereof is necessary or appropriate, then all travel and maintenance expense necessarily incurred in making such examination shall be paid by the Grantee. The Grantee shall prepare and furnish to the Superintendent of Streets at the times and in the form prescribed by the Superintendent of Streets such reports, with respect to its operations, affairs, transactions or property, as may be reasonably necessary or appropriate to the performance of any of the duties of the City or any of its officers and employees in connection with this franchise. The Grantee shall, at all times, make and keep in the City full and complete plans, maps, and records showing the exact location of all Closed Circuit System equipment installed or in use by Grantee in streets, alleys and public places of the City. The Grantee shall file with the City Engineer on or before the last day of March of each year a current map or set, of maps drawn to scale, to be designated by the City Engineer, showing all Closed Circuit System equipment installed in streets, alleys and public places of the City during the previous year.

Section 16. SEVERABILITY. If any section, subsection, sentence, clause or phrase of the ordinance be for any reason held illegal, invalid, or unconstitutional, such invalidity shall not affect the validity of this ordinance or any of the remaining portions thereof. The invalidity of any portion of this ordinance shall not abate, reduce or otherwise affect any consideration or other obligation required of the Grantee by the franchise.

Section 17. The Mayor shall sign this Ordinance and the City Clerk shall attest to the same and the City Clerk shall cause the same to be published within fifteen (15) days after its passage, at least once in The Upland News, a newspaper of general circulation published and circulated in the City of Upland.

APPROVED AND ADOPTED THIS 10 DAY OF JANUARY, 1958.

Expansion of the Pony league from four to six teams was discussed, and the group voted to have paid umpires for all games this season due to the success of this plan last season.

The resignation of Mrs. Marie Snow as secretary was received with regret.

adult education and teacher training courses are playing important roles in the proper development of our young people."

This area is served by several excellent nurseries and pre-kindergartens, the ones of which we are familiar or have heard good reports, include the Episcopal Day school and the Methodist Nursery school, both in Ontario, and Forrest Nursery and Pre-Kindergarten school, Monte Vista. To our knowledge, Upland proper has no such facility at present.

Raiders Open FCL Season With Win

Finishing with a 13 point spurt in the fourth quarter, Upland Junior High Raiders opened their 1958 San Gabriel Valley league season with a well-earned, 28-15, victory over Azusa on the loser's courts. Guard Richard Farmer paced the local digit dunkers with eight tallies, followed by Jim Thomas with six.

The locals led 11-5, after a dull, low scoring first half and could sink only four in the third quarter as their margin dwindled to 15-11. The Raiders, outhustling their opponents, moved ahead easily in the fourth and final quarter.

The Junior Raiders opened their league season on the Upland hardwood, losing a narrow, thrilling 19-17 tilt to the Azusa lightweights. Guard Wayne Schubert and Forward David Storms were top scorers for the locals with five counters each.

The home five started very slowly, trailing 9-3 at the end of the first quarter, and finished fast, outscoring the victors 14-10 in the remaining three periods, but were unable to overcome the earlier deficit.

Mr. Hill received a Rector's award for his position as senior acolyte at St. Mark's. He has served for more than 100 services each year for the past four years, and despite the death of his wife has continued to serve the church with devotion, the Rev. Fr. Erickson said.

5,873 Salk Injections Given Here

Five thousand, eight hundred and 73 injections of Salk polio vaccine have been given in Upland by San Bernardino county Health dept. in the past two years, Dr. Merle E. Cosand, county health officer, told The News this week.

The Salk injections have been made during the period Jan. 1956 through Jan. 1958, Dr. Cosand said. Of this total, 2605 were the first shot in the required series of three injections, 2022 were the second shot and 1246 were the third and final injection.

Children up to four years of age received 953 shots, including 395 of the No. 1 shot, 351 of the No. 2 shot and 207 of the No. 3 shot. For the other age groups, five through 40 plus, the three shots have been given as follows:

Ages 5-9, 417-419-369 for a 1205 total; Ages 10-14, 653-543-145 for a 1341 total; Ages 15-19, 561-433-477 for a 1471 total; Ages 20-24, 85-41-10 for a 136 total; Ages 25-29, 122-61-16 for a 199 total; Ages 30-34, 180-88-9 for a 277 total; Ages 35-39, 146-65-9 for a 220 total, and Ages 40 plus, 46-21-4 for a 71 total.

These figures show that a major share of the injections were given to children and students not more than 19 years of age, or 4960 of two year total of 5873 injections.

Citrus Discussion Group

Dr. Embleton To Speak Monday On "Citrus Fertilization"

Dr. Tom Embleton, of the Horticulture Department at the Riverside Citrus Experiment station, will be the featured speaker at the January meeting of the Upland Citrus Discussion Group, according to Dick Puffer, Farm advisor. The subject of citrus fertilization will be presented at these meetings. The meeting will be in the OK-San Antonio Exchange office, 8 p.m. Monday.

This is the time of year when many citrus growers begin to think about fertilizing their citrus groves. The most important time of the year for a citrus tree, as far as fertilization goes, is during the spring flush of growth, bloom and fruit set.

Bob Cameron, is chairman of the Upland Group.

$9408 Paid City For Fire Losses

City of Upland recently received $9408.98 in full payment from the city insurance adjuster for fire damage to the city maintenance yard several months ago.

The insurance payment included $4004 for contents of a storage building destroyed and $5,404.98 for the building. This does not include payment for the vehicles in the building, which were covered by another adjuster.

Science Curriculum In Elementary Schools Nothing New In Upland

A shell collection, part of a science display on The Sea, is examined by Mrs. Opal Hawes, Upland Elementary school district director of education; Richard Riley, principal of Upland Elementary school, and Jarvis J. Leman, president of Upland Elementary school district board of trustees. A large science exhibit prepared by the kindergartens and grades one through six at the school were viewed by the trustees and school administrators at the recent board meeting.

Dr. John Skewis checks over a model satellite winging its way about a model earth as Floyd Allen and Mrs. Raymond M. Kay also observe the model. The three members of Upland Elementary School district board of trustees were viewing the science exhibit prepared by Upland Elementary school students. In the right forgeround can be seen a small bowl acquarium and at right a caged canary, all part of the exhibit. In the background is a student-made spider web.

More and more elementary schools are adding science to the curriculum. Upland Elementary school district has offered a substantial science program in its schools for some time, but with the new emphasis today on science and mathematics, in the light of recent satellite and rocket launchings, more Uplanders are more interested in their schools' programs, District Supt. Harold W. Cook reported.

As in thousands of schools from coast to coast, science is considered just as basic as social studies in Upland elementary schools. "Teaching science is part of the elementary school's job," states Mrs. Opal Hawes, director of education for the Upland School district.

Early Experiences

She points out the importance of science teaching in the early grades lies in the fact that experiences in early years of a child's life are the most important in molding his life pattern of thinking.

At the recent meeting of the district board of trustees, a display of scientific projects prepared by kindergarten through the sixth grades of Upland Elementary school were viewed by the trustees. These projects included exhibits on nature studies—of plants, of fish, of fowl, of minerals—and other sciences, atomic energy, to the universe and the world's first satellite presented in replica.

Trustees viewing the exhibits with Supt. Cook and Mrs. Hawes were Jarvis J. Leman, president; Mrs. Dean Engle, vice president; Dr. John Skewis, Mrs. Raymond M. Kay and Floyd Allen.

Science Evaluated

Richard Riley, principal of Upland Elementary school, quotes from the 1957 fall issue of The Packet, which stated: ". . .the knowledge of science and the scientiifc attitude toward facts, such as what constitutes a fact and how facts are arrived at, would not be a detriment to one in any profession. Sound science training, including plenty of physical sciences, in the elementary grades is therefore not wasted, whether or not the student elects to make science his lifework.

". . .physical science is a major, vital, growing part of our culture. More and more we are becoming dependent on physics and chemistry in nutrition, transportation, communication, housing, clothing, entertainment, to say nothing of national defense."

Essential Features

Mr. Riley further adds: "The essential features of natural science are, more than anything else, a way of thinking and a method of problem solving. In consquence, science is of profound significance in shaping attitudes and determining behaviour.

Scientific Method

"The scientific method is one of gathering evidence, evaluating the evidence, testing interpretations and reasoning by experiment, and formulating conclusions and deriving principles of action accordingly. The scientific attitude is one of ntelligent curiosity and wonderment, of eagerness to discover and accept reality, of open-mindedness and tolerance, of humility toward truth, of withholding judgment in the absence of evidence, and of regarding all judgments and conclusions as tentative and subject to revision in the light shed by additional evidence".

As to what makes up a good science program, Mrs. Hawes adds: "A good science program is strongly structured. It provides a framework of concepts, built up through experience, on which to build future learnings, rather than a surface of isolated facts.

Total Relationship

"Further, in a good science program a major portion of the subject matter is related to the total curriculum. Many of the science activities are motivated by problems that arise in other areas of the curriculum, particularly in the social studies.

"A good science program is also geared to children's developmental needs—physical, mental and emotional.

Three-Fold Program

"A good science program also carries its share of the future. By this we mean it helps to prepare children for citizenship in a scientific age. Its goal is scientific literacy for everyone.

"A well-balanced science program in the intermediate grades, according to science authorities," Mrs. Hawes concludes, "should include some experience in the areas of (1) living things such as plants and animals, (2) earth and universe, as geology, earth structure and weather, and (3) matter and energy, including electricity, sound and atomic energy." The recent exhibit revealed the thoroughness with which the local science curriculum is geared to this three fold program.

John Z. Martin, president of Upland college, is invited to participate in the first West Coast conference of Trustees for Church colleges, Friday and Saturday, on the College of the Pacific campus, Stockton.

Aged Defendant Serves 90 Days For Shooting

Frank D. Prouty, 76, of 5189 Foothill Blvd., is now serving a 90-day term in San Bernardino county jail as the aftermath of an early-morning incident when he fired a shot through his apartment door and wounding a man knocking at the door.

Judge Fred H. Jacobs last week sentenced Mr. Prouty to 180 days in county jail, 90 days suspended, after the defendant pleaded guilty Dec. 19 to a reduced misdeameanor charge of carrying a concealed weapon, following his arrest for assault with a deadly weapon.

Melvin H. Horst, 33-year-old Pomona man, was wounded in the neck when the bullet fired by Mr. Prouty passed through the apartment front door more than a month ago.

Following sentencing, Judge Jacobs stipulated that Mr. Prouty be placed in a home for the aged and be required to report regularly to law enforcement authorities, following his jail sentence.

Closed Circuit TV Here

Unless circumstances change, Uplanders are going to be privileged to have closed-circuit or paid television programs within two years. This community has been selected as one of the "pilot" areas by the Tele-Movie Development Co. What is learned here in providing the unusual facilities will be regarded as "experience" by the promoters in planning an extensive coverage in Southern California.

Much local interest has been shown in the possibility of having a closed circuit program. Under this plan, subscribers will "pay" for the programs, where at present advertisers pay to bring the top entertainment and sporting events into local homes.

If Uplanders quite widely "accept" the opportunity of paid television, and if other southland residents progressively buy the service, the time might come when commercially-sponsored programs would be a thing of the past. That will be one of the interesting observations to come after actual operation of the closed circuit programs.

In any event, it is interesting to have the "experiment" occuring locally. It is one of the many developments to come in the rapidly-changing times.

We are glad to welcome closed-circut television.

How To Improve Upland?

How to improve conditions in Upland? What do you have to suggest?

Every resident here, while recognizing this community has many advantages, is always interested in what changes for the better can be made.

Newcomers frequently have good observations because they see this long-established community with a new perspective. What may seem routine and satisfactory conditions to us who have been here for years, some situations are in need of improvement in the eyes of people who must adjust and who would like to see changes.

In contacts with newcomers last week, we recorded these observations:

"This town should have better control over dogs in the residential area."

"Upland taxes should be lower. They are now much higher than in Ontario."

"While I think the policemen are courteous and trying to do a good job, I do not believe traffic citations should not be issued for minor offenses, until after the second violation."

The Upland News would be very happy to publish all views from residents on any ideas concerning possible improvement of local conditions, needed laws and changes in the present way of doing things.

Dodgers In Coliseum

Baseball fans in all Southern California are generally pleased with the Los Angeles Dodgers finally be settled in the Coliseum.

Baseball fever is going to spread because of good seats always being available when fans outside of the Metropolitan area choose to attend one of the major league games.

While people in this area formerly had their favorites in either the Hollywood Stars or the L. A. Angeles, it is very likely all of us can center on the new Los Angeles Dodgers and develop keen interest in the Dodger roster and in what they do with all visiting squads.

The Los Angeles Dodgers will have a very strong local effect on the Little League activity here. More and more local players will want to aim for the big league.

The city of San Francisco operates three municipal utility services, a street railway, an airport and a bureau of heat, light and power. During the last fiscal year these operated at a loss of nearly $6,000,000. This loss, of course, is made up by the taxpayers.

His headquarters with Syeth will be in San Bernardino. He resides at 1194 Alta Avenue, Upland.

Sharps and Flats

By Chuck Barlow

It seems that a hundred bucks isn't the attraction it used to be. Not that most people wouldn't like to have a hundred bucks, but the value seems insignificant compared to the astronomical amounts offered as TV prizes.

TV has put a lot of people, mentally, clear out of this world. It is a shame that homespun values must be compared to professional advertising media.

We used to enjoy entertainment produced at home. Viewers were profuse in their praise of a performer. Anything less professional that TV offerings bore the viewer today. In most cases the viewer is downright critical. Comparision is always made with something seen on the screen or TV. This leaves the hometown production a poor second.

This same comparison does much to harm local promotion efforts when cash prizes are offered. For instance, the D-Days prize of $100 looks like peanuts compared to the prize on the $64,000 Question.

It isn't necessary to be a dreamer to enjoy TV but it helps. If a person isn't way out in left field when first exposed to TV, he will be when the addiction takes over in full force. This is what makes people disregard $100 in their own yard to dream of $64,000 they haven't a chance of winning.

Local people have a chance of spending the $100 offered every month by D-Days merchants but they haven't one chance in 100 million of spending a single copper out of the $64,000 pot.

What I'm tryng to say is that "a bird in the hand is worth 64,000 in the bush." In other words people ought to snap out of it long enough to become acquainted with opportunities at hand.

It makes me think of a letter attributed to one of my shipmates during WWII. He had fallen out of love with the girl he left behind and was real gone about a beautiful Irish gal. They wanted to wed. He wrote to his former attraction stateside and told her of his Irish plans. She wrote back and asked him, "What does she have that I don't have?"

He answered: "Nothing. . . but she has it here."

This applies nicely. The $100 monthly D-Days prize money is right here. The great big fat TV prizes are away out yonder.

That $100 would sure make a nice addition to my household but I ain't eligible. Being closely connected with the advertising end, the first thing to be hollered, if I won, would be "frame up!"

But I can dream, can't I?

Thousands of tickets are turned in by those registering for D-Days but many customers tell me they didn't get tickets because they didn't know anything about them. . . nor did the merchants tell them.

The merchants in rebuttal say, "people don't seem to be much interested in such a small prize. They want a bigger prize."

This I might believe if I didn't know how many tickets are coming in after D-Days. A lot of people are slanting for that 100 bucks.

Some D-Days participants have suggested more than one prize. This has been voted down because the D-Days people are conscious of the thinking of their customers concerning prizes. But why pamper an illusion.

The prize isn't the biggest in the business but it is 100 hard American dollars and I can find hundreds of local people who would be eager to possess it.

When D-Days and this prize is mentioned a lot of people give that classical answer: 'Why should I register? I never have won a prize yet, so I wouldn't win the D-Days money."

Yer dern tootin' they won't win the $100 D-Days prize with such an attitude.

The only way a customer can be a winner is by registering and having a ticket in the drawing.

You haven't a chance if you don't register. It's one thing that's for FREE and without to have a chance on the hungimmicks. All you have to do dred bucks is get your name on the registration books in the places of business of D-Days participants.

They were requested to pay $16, cost of the bulbs, and were ordered by Judge Mildred C. Puckett to report to the police at stated intervals when they were to wash police cars and fire trucks, in a plan to teach them the importance of preserving things.

Mrs. Mary Eckerman retired as chairman of Upland chapter American Red Cross, after serving 10 years. Mrs. Paul Adams succeeded her.

25 Years Ago

A recall movement of all elected county officials was reported in The Upland News as revealed in the Orange Belt News, labor journal. J. K. Tibbits, publisher, was reported behing the move.

WAC Sp Thudium Appears On TV Situation Comedy

Specialist Third Class Constance Thudium, daughter of Mr. and Mrs. E. T. Thudium, 334 N. Euclid Ave., recently appeared on television as a member of an all WAC audience which participated in a Mr. Adams and Eve show.

Ida Lupino and Howard Duff, the stars of the show, depended a great deal for their humor upon the idea of two enany idea that their audience consisted entirely of female military pessonnel. The success of the show was due in large part to the WAC participation.

Specialist Thudium, a clerk in Headquarters Co. U.S. Army, Fort Myer, Va., entered the Women's Army corps in Nov. 1955.

She is a 1955 graduate of Chaffey Union High school.

I always get myself an obligation — real or imaginary — and stew out of it.

For instance, I may tell Euclid Savings & Loan at Ontario I am going to put $5 a week into a savings account there for myself.

It's a sort of promise. They won't do anything to me if I don't, but I feel sorta honor-bound to take in or mail in my $5 every week.

Well, that piles up to $260 a year — or $2600 in 10 years. That will give me a nice total in 10 years with their current rate of 4% compounded semi-annually.

And if you don't think 10 years will pass soon, you just ought to hang around as long as I have.

Burton Jackson, Educational Assistant, Serves Church With Versatile Background

Burton Jackson, educational assistant to the Rev. Trusten A. Hart of First Presbyterian church, was lauded by the Rev. Mr. Hart on completion of the new church facilities for his valuable advisory work on the construction project.

Prior to assuming the full-time Christian education post with the Upland church two years ago, Mr. Jackson served as choir director and was engaged in the construction business with Hofer Construction Co. of Fontana. With such a background, he has been of invaluable assistance to the church project, the Rev. Mr. Hart states.

Mr. Jackson resides with his wife and two children, Tom, 10, and Judy, 14, at 1356 N. Third Ave. The family came to California in 1947 from Cincinati, Ohio.

Earlier than the era of his construction work, Mr. Jackson was a professional musician and an aviation mechanic.

His career as a professional musician spanned a 10-year period, during which time he did extensive radio staff work in Cincinnati, as well as some theater work and choral conducting, his special interest. In radio Mr. Jackson did both instrumental and vocal work.

A graduate of the Curtis Wright Technical school of Glendale, he served as chief mechanic for Trans-World Airline at Dayton, Ohio, his service with the company continuing for five years. He still retains his Aircraft and Engine mechanic's license.

With such a versitile background—music, radio, mechanics, construction—it does not seem surprising that Mr. Jackson's contributions to the Upland church in this period of growth and building construction have been inestimable.

Larry L. Artis At Pearl Harbor

Larry L. Artis, fireman, USN, son of Mr. and Mrs. Norman L. Artis of 446 12th Ave., returned to Pearl Harbor, T.H., Jan. 8, aboard the escort destroyer USS Walker after a five-month cruise in the South Pacific and Far East.

Since leaving her home post in August, the Walker had traveled over half way around the world from ports in Japan to the land-down-under, Australia.

As a unit of Destroyer Division 253, the Walker joined the U.S. Seventh Fleet after leaving Midway Island, her first stop en route to duty, and participated in anti-submarine defense operations and fleet exercises. Between these operations, the destroyer visited Kobe, Magoya, Sasbo and Yokosuka, Japan, Hong Kong, B.C.C. Manila and Subic Bay, P.I.

In December the Walker was detached from the Seventh Fleet and traveled to Sydney, Australia, where her crew spent Christmas.

Leaving Sydney, Dec. 27, the vessel headed for Pearl stopping at Pago Pago in the Samoan Islands before completing her cruise.

Dr. James V. Latimer — This Life We Live

YOUR GARDEN AND MINE:

Many years ago one William Shakespeare wrote about the light of a candle and how far it penetrates into the night. So it is today that we never know how far an influence will carry and we cannot measure the power of any good deed.

A friend of mine was at Roycroft Inn when it was the home and workshop of the late Elbert Hubbard. A man rode up and called to a fellow working in the yard and said, "Here John, look after my horse." Then he went into the office and asked for Mr. Hubbard. The clerk said "You were just now talking to him." So Elbert Hubbard became known as "John" about the place and the other fellow learned something about courtesy and service.

I have read about a young girl who was in the rose garden when a forlorn-looking boy passed by. He stopped to watch her at work. She asked if he liked flowers, and picked a few choice ones for him. Twelve years later when she was married and had a home and garden of her own she was again with her flowers. A young man stopped to watch her at work. She asked him if he were fond of flowers and picked some for him. He said to her, "Twelve years ago you asked me the same question as I stood watching you work one evening. Your smile, the kindly voice and the flowers gave me a new appreciation of life and helped me to go on. All I am today I owe to you."

Back of every artist there are friends who have encouraged them and back of every good life there are hidden forces. One never knows how far a little candle will shed its light nor how far an influence will reach. The business of a candle is to shed light.

"Date With Dad" Successful; League Plans Future Events

"Date With Dad", the Highlanders' first father and daughter party, was attended by more than 220 persons Thursday evening in the Upland High school gymnasium. Sponsored by the Girls league, this activity will now be carried out each year and become an annual presentation of the Girls league, states Betty Cascio, president of the League.

The program included a special speaker, Dr. Earl Riley, minister of First Baptist church in Ontario.

Music, Dances

Musicial selections presented by Elbert Warren's Girls Ensemble included "Silver Night," by Beethoven; "Black is the Color of My True Love's Hair", a Kentucky folk song, and "A Real Nice Clam Bake" by Rogers and Hammerstein. "The Lord's Prayer" was sung by Bonnie Van Ort. Pat McNay sang "Ave Maria" by Schubert.

Dancing numbers performed by Carol Ann Murray and Marsha Kelber were "The Sailor Dance" and "The Charleston".

Students who helped plan the activity were Linda Thudium, advertising; Janet Shearer, program cover; Judy Bliss, entertainment; Alta Wilbright, Jo Anne Gandy, Gail Castellini and Madeline Patane, decorations; Sharon Larson and Gail Castellini, tickets; Elaine Quaschnick and Beverly Stipe, refreshments; Sue Young, equipment and furniture; Marie Anne Patane and Emma Griffin, invitations; Betty Cascio, clean-up.

Backwards Week

A Backwards week and dance are being planned by the Girls league for March 10-15, according to Betty Cascio. During this week the girls will do things for the boys. "The dance is usually the most exciting date for the girls except they have to pay for it." said Betty. A mother and daughter party is also being planned.

Michigan ranks first in the production of automobiles, gray iron, breakfast foods, woodworking machinery, auto trailers, refrigerators, cutting tools and boats.

UHS Leaders To Tri-County League Meet

Seven Upland High school Student Council members traveled to Bonita High school on Thursday to attend a Tri-County league Student Council meeting. Upland, Claremont, Chino, Corona and Bonita high schools are members of Tri-County league.

A discussion was held on the subject of good sportsmanship at inter-school activities. It was suggested to have a sportsmanship award that would be presented each year to the school displaying the best sportsmanship throughout the football and basketball seasons. However, after careful consideration, it was decided to continue using the sportsmanship code that will serve as a guide by which the schools can aspire to better sportsmanship. The code was devised last October by the student body presidents of the Tri-County schools.

The code reads:

We the students of the Tri-County league, recognize our responsibility of maintaining and improving good sportsmanship practices at all inter-school activities. As students we share a common goal to promote in our respective student bodies a sense of fair play, good citizenship, co-operation and fellowship.

In attendance from Upland High school were Don Bangle, David Armstrong, Phyllis Croghan, Jeanette Amberson, Betty Cascio, Eddie Collins and Jon Kay. Counselor Robert Erickson accompaned the group.

Youth Employment Service May Serve Three Schools

A Youth Employment service that would serve youths in Upland, Chaffey and Chino High schools is in the planning stages states Harlan Gray, Upland High school ASB vice president.

TRANQUILIZERS DOCTOR'S TOPIC

Employes of San Antonio Community hospital attended a seminar on tranquilizers last week when the speaker was Dr. L. O. Stocks, a member of the medical staff.

Dr. Stocks gave the history and background of the drugs and explained many of the physical and psycological illnesses for which they are used with much success. He cautioned against the claims of various publications which have boosted these drugs as a cure for just about everything, which he said is untrue. He said indistriminate use of the drugs could be harmful.

Announcement was made of a seminar, Tuesday, 7:45 p.m., when the program will be on the admitting office of the hospital with the problems involved. Mrs. Peggy Tinson, an employe of the hospital will present the program.

$3000 Given Casa Colina

Casa Colina was the recent recipient of a check for $3,000, presented at the recent board of trustees meting by the Convair Employes Con-Trib club, Stephen I. Zetterberg, board vice-president, announced.

The contribution brings the current fund drive to approximately $55,000, with $25,000 still to go to meet the quota set for this year.

The private, non-profit children's rehabilitatoin center is vitally dependent upon public contributions to maintain its progressive program and policy of admitting children without financial restrictions.

Mr. Zetterberg pointed out that the center's actual rate of per diem treatment is currently only $13.27, the lowest in the state.

"This point," he said, "reflects a definite lack of unnecessary overhead."

Gannon Building Coordinator College Trained For Building

MIKE MYERS
. . . supervises construction on new center

Michael "Mike" Myers, construction coordinator on the new professional building on E. Seventh St. for D. A. Gannon Co., one of Upland's ranking construction firms ,is a college graduate in Residential Building, a little-known and relatively new college program.

Mike arrived in Upland in mid-July of 1956 from Bay City, Mich., to assume a position with the Gannon Co., following his graduation from Michigan State university at East Lansing.

At the time of his graduation, only five colleges were offering the Residential Building curriculum, with Michigan State being one of the pioneers in providing college training for residential builders.

His position with the Gannon firm in Upland resulted from Mike's attendance at the National Home Builders' convention in Chicago, which Mr. Gannon also attended in Jan., 1956. The two men met during the meeting and their association here resulted.

On July 2, 1956, Mike took as his bride, Miss Shirley Rotarius ,and headed west to California. They have since resided at 121 N. Fern Ave., Ontario.

His work with the Gannon Co. has largely been participation in coordinating construction on Baldy View Estates and on the firm's custom work, such as the contract for the new medical-dental building.

Safety Council Reactivation Council Plan

Reactivation of Upland's Safety council is being sponsored by Upland city council, with Councilman Wm. Kistinger having attended a Jan. 14 Pedestrian Safety seminar as a preliminary step toward this reactivation.

Mayor Donald C. Carr suggested at a recent council meeting that as a part of good government the city should organize and maintain a Safety council. He lauded the past safety committees of the Police Dept. whose recommendations to the city council were found effective and necessary.

Mayor Carr suggested the Council police committee be responsible for reactivating such a Safety council. Councilman John Nicholson favored the action and suggested representatives from service organizations having Safety committees send representatives to the Safety council.

He is survived by his widow, Mrs. Helen Murkins of Upland; one daughter, Mrs. Kenneth Ollila, and one son, Lyle Murkins, and six grandchildren, all of Ontario.

The funeral service was held Saturday, 10 a.m. in Stone Funeral home with the Rev. J. Franklin Lee of Glen Avon Community church, Glen Avon, officiating. Interment was in Bellevue cemetery.
